

Mr. Chairman & members of the committee. I am Archie Nunn, A resident of Montana For over 3/4ths of a century.

It is my pleasure to rise in support of Senate Bill 189. This bill is a good bill It speaks to fairness and accountability. These are two traits that define the people of our great State.

When we pay our taxes we are being accountable. Because it's our responsibility as a citizen & privilege. as a resident of this place we call Home.

We have elected this legislature to enact laws to keep us safe and to provide guidance to promote good health and economics that is fair for all..And We Hold this body accountable. This is also true with the PSC .

We gave this Body the tools they need to do their job. In all fairness We should do the same for the Public Serves Commission. I see nothing in this bill that is unreasonable, I would recommend Do Pass.
